

No Brotherly Love: THE MUSLIM BROTHERHOOD

"Allah is our objective. The Prophet is our leader. Qur'an is our law. Jihad is our way.

Dying in the way of Allah is our highest hope."

The Muslim Brotherhood (al-Ikhwan) was founded in 1928 by Hasan al-Banna as an Islamic revivalist movement. Terrorist attacks and assassinations (including Egypt's Sadat) are tied to the Muslim Brotherhood, which can now be found across the Middle East, Africa and the here in the United States.

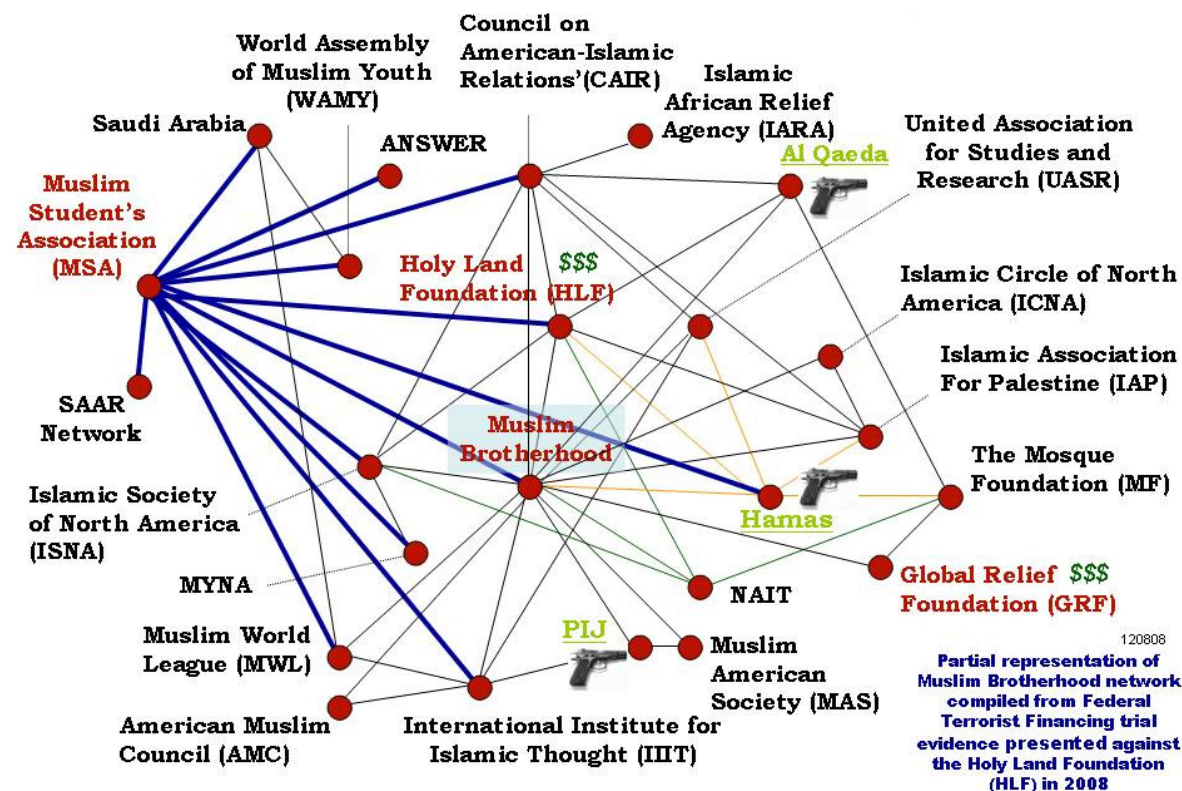

The Brotherhood maintains a complex financial network that support its operations. According to its 1991 explanatory memo, the **General Strategic Goal for the Brotherhood in North America** includes (emphasis added):

- ... a "global Islamic state"...
- The process is a "Civilization-Jihadist Process." The Ikhwan('s) work in America is a kind of "grand Jihad in eliminating and destroying the Western civilization from within and "sabotaging" its miserable house by their hands and the hands of the believers so that it is eliminated and God's religion (Islam) is made victorious over all other religions."

In 2008, during the successful prosecution of the Holy Land Foundation on terrorism financing charges, the FBI identified the Muslim Brotherhood's North American network, including numerous organizations as unindicted co-conspirators in the case, including those listed below. These organization operate in our schools and universities, influence local government and have filed lawsuits (describe) against US citizens, businesses and municipalities. These organizations may represent a threat to our culture and governance.

The salvation Islam affords individuals may be religious, but its harmful treatment of non-believers is *pure politics*.

Why We Must Resist

the Vision of a World United under Islam

Islam is not just a religion; it is a political doctrine as implemented under Islamic Sharia Law. People should take note that **Islam makes attainment of political goals a religious duty**, thereby making inseparable the religious from the political. Islam's express goal is to spread Islam across the world—to replace or subjugate anything non-Islamic. Wherever Islam thrives, a state within a state develops and the existing government and unbelieving (kafir, infidel) culture is rejected. The Islamic minority grows in until it can conquer, by political or violent means, the established government and replace it with Sharia.

Beginning about 630 AD, Islam was spread by the sword. Today, its modern conquest begins with immigration and enlarging populations followed by a demand for deferential treatment of Islam in the host country, including insistence on religious accommodations, judicial separateness, and general cultural and educational non-integration. Imagined affronts to Islam are claimed and redress demanded. Islam rejects the host law and culture.

Sharia law, heavily influenced by 7th century Arab culture, denies freedom of speech, religion, expression and action and rejects equality between men and women, thereby violating human rights. Sharia has no "Golden Rule" to treat individuals equally. Instead Sharia segregates people into two classes of people: Muslims and non-Muslims. Muslims are supreme and non-Muslims are inferior, holding no equal rights under Islam. Muslim-Muslim relations are completely separate from Muslim-kafir relations, where deceit is *sanctioned* and mistreatment largely unpunished.

No matter the temperament of individual Muslims, the Islamic community as a whole, the "ummah," drives the process of Islamization (codification of Islamic supremacy via Sharia law) in every country where Islam thrives. There is no room to list the thousands of violent acts of Muslims against non-Muslims *in the name of Islam*. Across the globe violence and political upheaval are associated with increasing Muslim populations.

The United States is a constitutional republic thoughtfully crafted by our founders, with its government powers defined in the US Constitution and separated into three branches filled by the President, Congress and Courts. Sharia law is irreconcilably in conflict with the US Constitution and our government. Islam condemns liberty, rejects equality, denies national sovereignty and violates human rights.

We cannot extend our tolerance to Islam's intolerance. Islam and Sharia are grave dangers to the United States of America and to all Western cultures. We must choose liberty, equality and representative government, over Islam's doctrine of submission, supremacism and dictatorial theocracy.

Consider what the world is going through today, nearly every conflict across the globe involves Islam threatening native populations. The tenets of Islam support violence toward non-Muslims. This should concern you. Please take a moment to consider the following pages.
